Subject Index

Absolute rates, theory of 235
Arginine 125
Book reviews 95, 96, 173
Brain, chemical growth of in albino rat 107
B-vitamins, influence on fission rate in *Dero* 51
Cat, prenatal growth of 149, 205
Cell growth
  effect of tumor extracts on 13
  in vitro 13
Chick embryos, growth in 1
Choline, dietary, absence of 59, 89
Cystine synthesis by rats 89
Davenport, C. B., appreciation of 169
Dero, fission rate in 51
Dilution, effect of, on growth in tissue extract 99
Domestic fowl, body growth in 311
Double tails in *Dugesia tigrina* 337
Drosophila larvae,
  tolerance of for nucleic acid components 117
  tolerance of for amino acids 125
Dugesia tigrina,
  spontaneous double tails in 337
Earth and Man (book review) 95
Effect of heat on growth in tissue extracts 99
Embryonic chick tissues 175
Extract of adult, embryo and tumor tissues effect on yeast growth . . . 251
Fission rate in *Dero* 51
Growth
  in chick embryo 1
  in domestic fowl 311
  in prenatal cat 149, 205
  in rat 1

on choline-free diet 59
in yeast 251
Growth concept in nervous integration 43
Growth promoting factors in adult tissue extracts 99
Growth substance, plant 1
Homocystine and rat growth 59
Hydroid growth, effect of hydroplasmic pressure on 321
Hydroplasmic pressure and hydroid growth 321
Methionine synthesis by rats on choline-free diet 89
Mitosis (book review) 341
Musculature and weight in fetal and adult cat 205
Nervous integration and concept of growth 43
Ontogenetic size differentiation 33
Organization of protoplasm 259
Reviews, book 95, 96, 173, 341
Parasitism, relation to fission rate in *Dero* 51
Physical activities in slime molds 221
Prenatal growth of cat 149
Protoplasm, organization of 205
Rats,
chemical growth of brain in 107
daily weights on constant diet 159
growth on choline-free diet 59
Respiration in slime molds 221
Reviews, book 95, 96, 173, 341
Schroder, Franz (review of) 341
Sex hormones, effect on chemical growth of brain 107
Sexual cycle and fission rate in *Dero* 51
Skeleton weight in fetal and adult cat 149
Slime molds 221
Synthesis of methionine and cystine by rats 89
Temperature effect on viability 175
Testis weight, natal, in domestic fowl 311
Tolerance of *Drosophila* larvae
for amino acids 125
for nucleic acid components 117
Theory of absolute rates in biological processes 235
Thymine 117
Tumor extracts, effect on cell growth 13
Viability of embryonic chick tissues 175
White leghorn hens, size differentiation in 33
Yeast growth 251
